**Supplying Coal and Bricks for
a Sustainable Development.**

Chairman's Message

Customers are the focal point of any business. So, satisfied customers aren't just good enough but more than a satisfied customer is what our company V R International Private limited believes in. We are one of the established players in the industry of coal and bricks. We are involved in the import, export and wholesale of our products.

From the safety of our communities in which we work to stewardship of the environment, V R International Private Limited, corporate responsibility, efforts are rooted in our core values and woven throughout the fabric of our corporate culture. Environmental excellence is our goal, and we operate our business to ensure we meet the expectations of our communities. It also gives us immense pleasure and joy, succouring the people who aren't wealthy enough.

We believe long-term utilization of coal and Bricks is vital, and to that end, we continue to voluntarily investigate and implement environmental controls that will facilitate continued, compliant coal and brick production for our customers in the future.

From the Desk of CMD
Capt. Sunil Agarwal
